

Quick Installation Guide

4ipnet SW1108

Unified Access Switch

Preface

4ipnet SW1108 is an 8-port 802.3af/at compliant gigabit Ethernet access switch, designed specifically for small/medium sized businesses that need to expand wired connectivity.

The SW1108 supports a total power budget of 150 watts for up to 8 powered devices, with up to 30 watts of power for each of its IEEE 802.3af/at compliant ports. Along with its 1,488,000 pps forwarding rate, the SW1108 is one of the most robust and powerful access switches in its category.

With enhanced IEEE 802.3x Flow Control feature, the SW1108 is the ideal choice for businesses and organizations looking for a fully-featured and reliable 8-port access switch.

System Overview

Front Panel

Rear Panel

1	Power	Steady green indicates the system is powered on.
2	ACT (1~8)	Green indicates the port is active.
3	10/100M (1~8)	Orange when operating at 100 Mbps. Dim when operating at 10 Mbps
4	1000M (1~8)	Green when operating at 1000 Mbps.
5	PoE Indicator (1~8)	Orange when power is consumed.
6	Power Supply Socket	Connect power cord for power supply (Input: 100~240V AC, 50/60 Hz)
7	Power Switch	Power ON or Power OFF the device.

Package Contents

1. 4ipnet SW1108 x 1
2. Quick Installation Guide (QIG) x 1
3. Power Cord x 1
4. Rack Mount Kit x 1

Power Cord

Rack Mount Kit

It is recommended to keep the original packing material for possible future shipment when repair or maintenance is required. Any returned product should be packed in its original packaging to prevent damage during delivery.
